

DevOps is not the Answer, nor the Question!

Arnold Bechtoldt / inovex.de
@arnisoph / arbe.io

Hi!

I am Arnold

I do  stuff for ,
and I  a lot.

me @arnisoph

?

My day as a “DevOpsOp”

Let's play bullsh*t bingo.

GitOps..

A woman is riding a white bicycle with a black wire basket on the front. She is wearing a white tank top, patterned pants, and a VR headset. The background shows a wooden fence and a sunset sky.

BikeOps..

ChatOps..

DevSecOps..

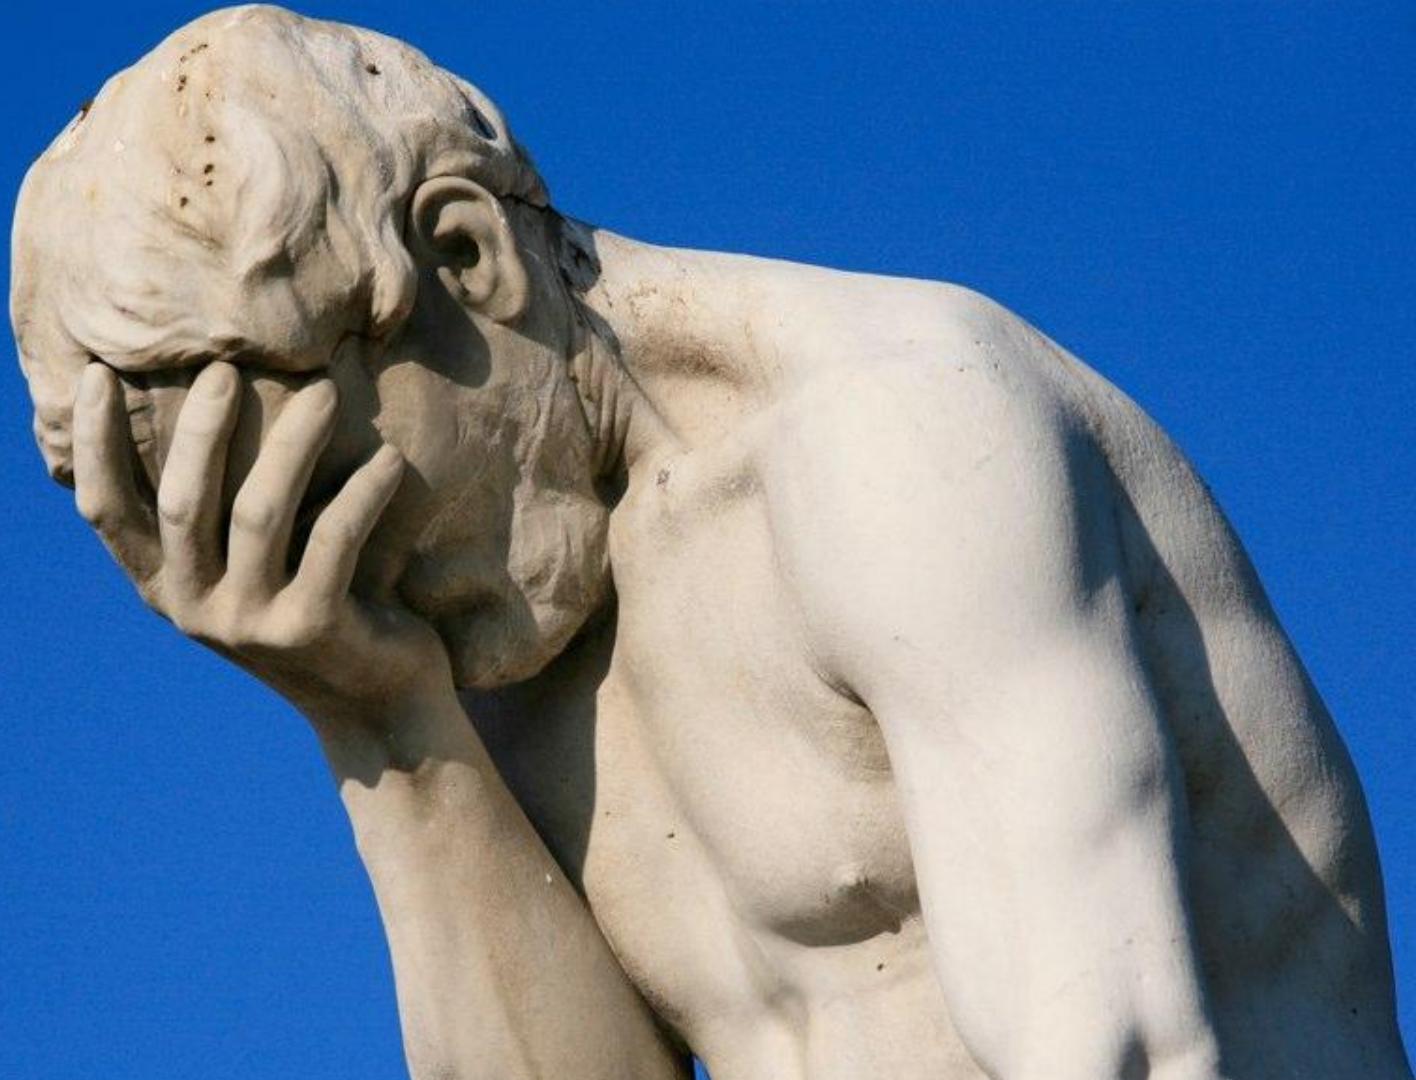

DevOooops..

A professional photograph showing five business people in an office setting. A Black woman with curly hair is in the foreground on the left, looking down at a laptop. Behind her, from left to right, are a blonde woman in a grey blazer, a man in a dark blue suit, another man in a dark suit with glasses and a beard, and a woman in a green top. They are all focused on the laptop screen, which is partially visible at the bottom of the frame.

GoogleOps..

OpsDev..

A close-up photograph showing two hands holding glasses filled with beer. The beer has a thick, white head of foam. The hands are positioned as if they are about to clink the glasses together. The background is dark.

BeerOps....?!

Has DevOps turned developers into circus jugglers? - TechBeacon

DevOps

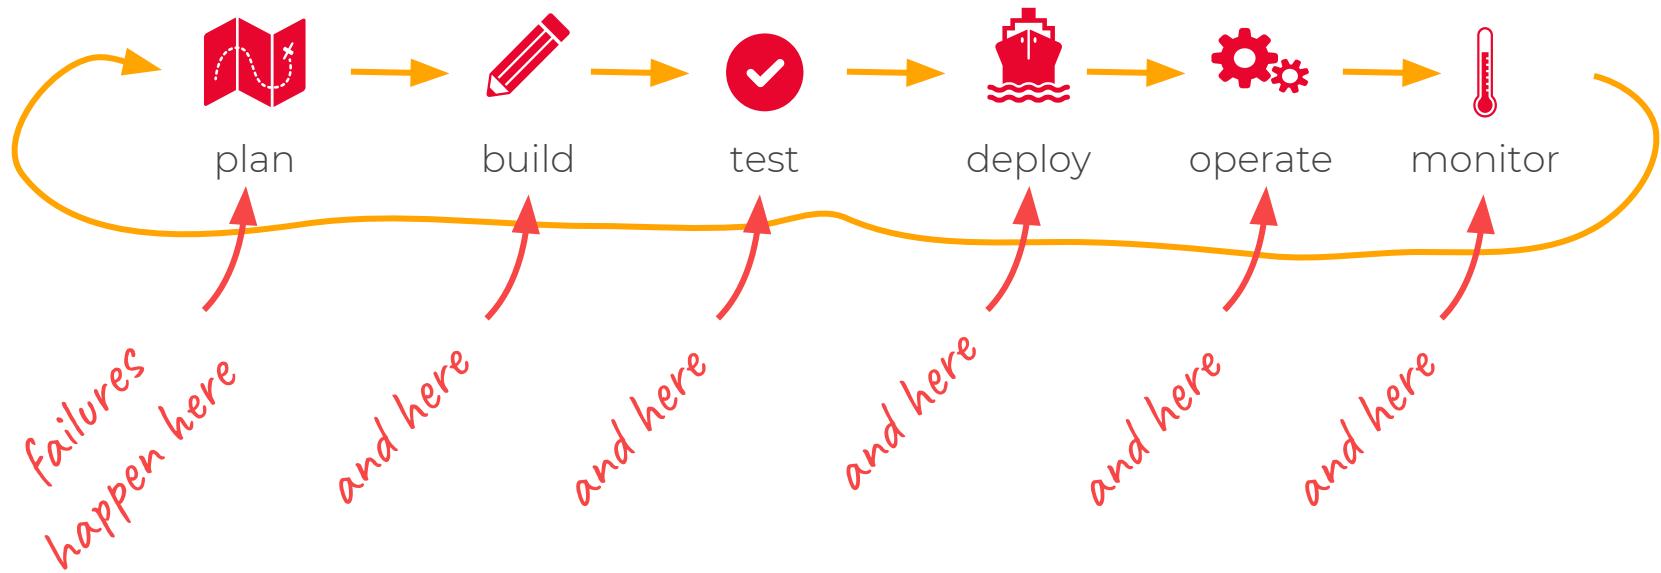

brought us a 💩-load of new buzzwords.

And in “real world”

... things look different.

DevOps (Fail) Cycle

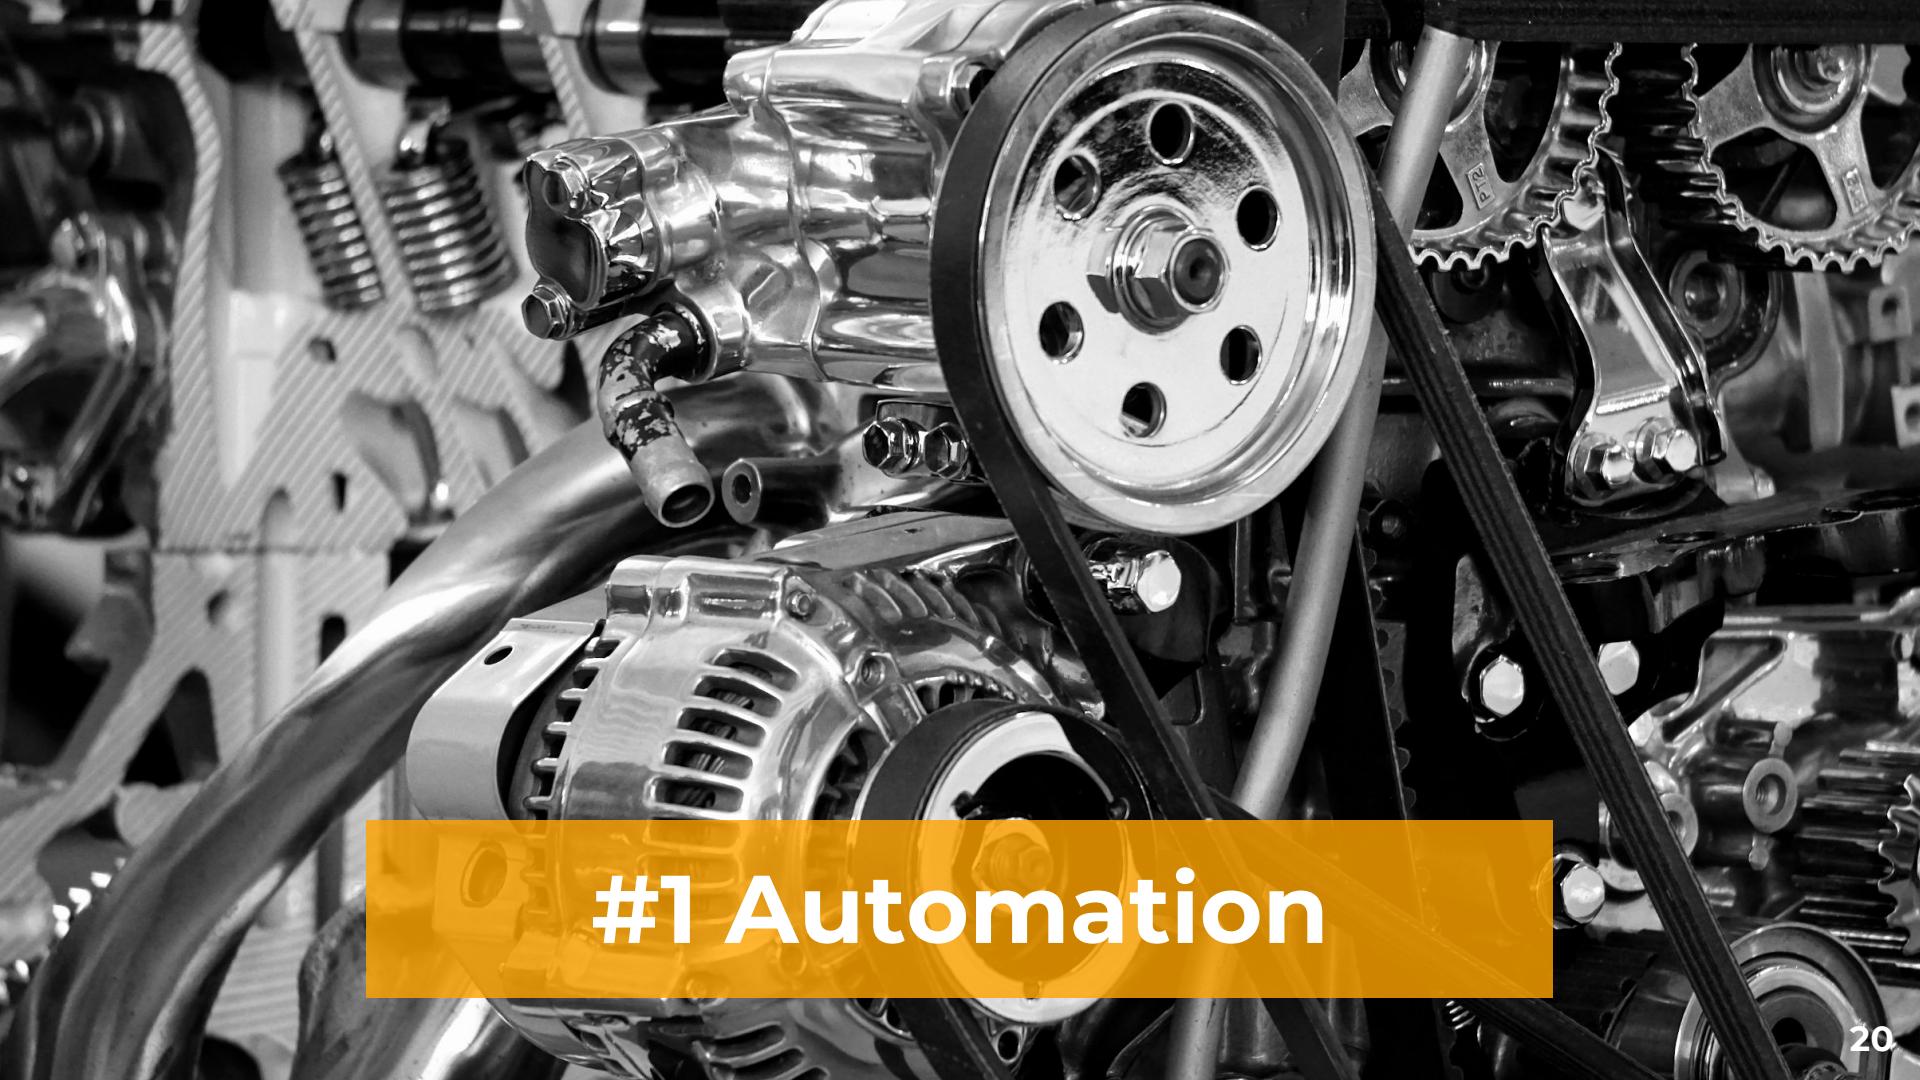

DevOps

is not the answer!

6 root causes

why failures happen

#1 Automation

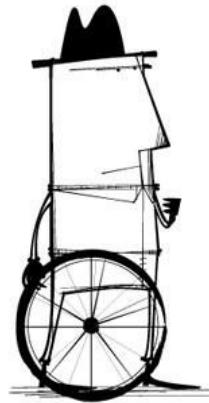

COMPLEX **COMPLEX** **COMPLEX**

#5 Communication

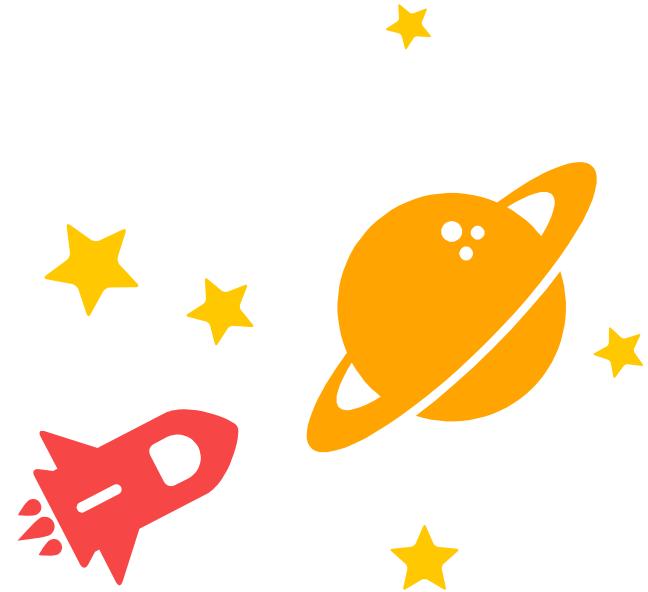

#6 Politics

DevOps

is not the question!

DevOps is about culture!

Culture is key!

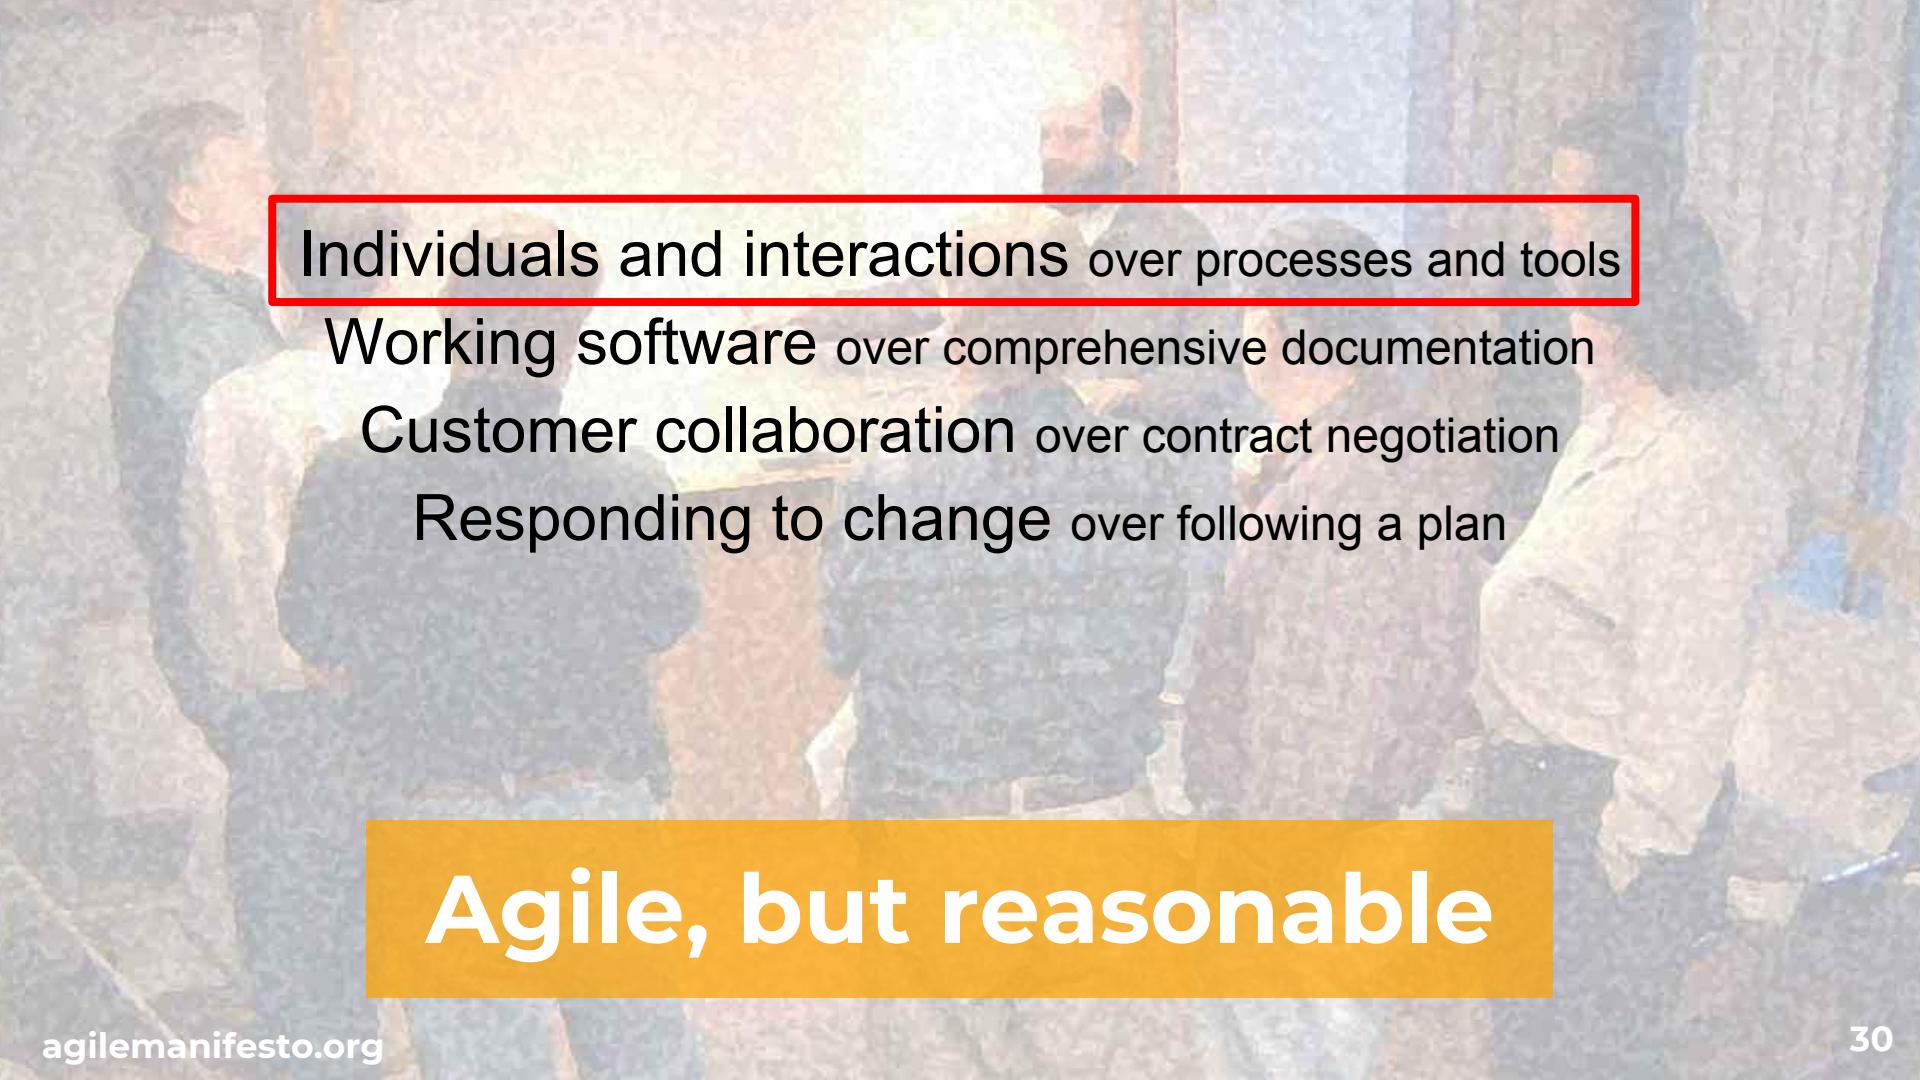

What to do instead?

Let's talk about culture!

Diversity matters!

Individuals and interactions over processes and tools

Working software over comprehensive documentation

Customer collaboration over contract negotiation

Responding to change over following a plan

Agile, but reasonable

Autonomous Teams

Failure Philosophy

Early - Often - Fast

Feedback Loops

(everywhere)

A black and white photograph of a complex mechanical gearbox. The image shows numerous interlocking metal gears of various sizes and profiles, all mounted on a single shaft. The gears are made of a polished metal, reflecting light in some areas while leaving others in shadow. The background is dark, making the metallic surfaces stand out. The overall impression is one of precision engineering and industrial power.

Automate everything

Keep It Simple Stupid!
(KISS)

DevOps

is not the answer, nor the question!

*If you want to increase your
success rate,
double your failure rate.*

Thomas J. Watson

Thanks!
